Echelon Plus®

The Higher Level of Aluminum Fences

Echelon Plus® is manufactured by Ameristar Fence Products in Tulsa, Oklahoma. Ameristar is the world's largest manufacturer of ornamental fencing.

Echelon Plus® has taken the quality and performance of aluminum ornamental fencing to a higher level.

Today, the damage potential that threatens fences has increased significantly in probability and destructive force. Echelon Plus® is designed with the long-term durability to withstand rigorous environments.

The cross-section of the Echelon Plus® rail is reinforced with an internal web that significantly increases strength, particularly against forces acting horizontally. This added strength, coupled with an improved post design, powder-coated finish, and fully welded gates, guarantees years of maintenance-free service and value.

THE ECHELON PLUS® DIFFERENCE

**ECHELON PLUS®
FORERUNNER™**

Internal Locking System

- Internal rod is tamperproof; pickets cannot be removed
- Rod goes through two walls of picket giving twice the shear strength
- Rod is completely hidden; rail has clean, finished appearance

VS.

**CONVENTIONAL
U-CHANNEL**

Removable Tek Screws

- Picket attachment can be easily compromised with simple tool
- Tip of Tek screw barely engages one wall of picket
- Exposed Tek screw detracts from a smooth architectural profile

The Echelon® ornamental fence product line is a revolutionary system of fences and gates that boasts an attractive “good neighbor” appearance with no exposed fasteners. Any truly great product must have a defining feature that sets it apart from all others; Ameristar’s Echelon® has the revolutionary ForeRunner™ rail.

Echelon Plus® Posts: 2-1/2” Square x .060” with Reinforced Web
Echelon Plus® Rails: 1-7/16” W x 1-1/4” H (.075” side walls / .055” top wall)
Echelon Plus Pickets: 3/4” x 3/4” x .045”

AMERISTAR® ECHELON PLUS®
WITH FORERUNNER™ RAIL & RETAINING ROD

SECURITY

ForeRunner™ Rail with Enclosed Retaining Rod
 Attachment cannot be compromised.

(No Fasteners are Exposed)

BEAUTY

“Good Neighbor Design”
 Rod Follows ForeRunner™ Centerline
 Clean uninterrupted look.

(No Screws or Rivets)

FUNCTIONALITY

Biasability a minimum of 25%

Boulevard Bracket

Enables accurate adjustment during installation

**The Echelon Plus
Classic style
provides
everything
ever asked
from a fence!**

Traditional spear-pointed pickets extend above the top rail of the popular Classic style. The picket spear is formed with a 3/8" diameter rounded tip rather than a sharp point.

**The Echelon Plus
Genesis style
is a base
for multiple
customized
designs!**

See last page for decorative accessories

The extended pickets of the Genesis form the popular and attractive style that terminates with a simple flat-top, effectively protecting the perimeter without competing with landscape or architecture.

Like all
Echelon Plus styles,
Majestic fills all of
today's fence needs!

- ALL-PURPOSE
- ALL-WEATHER
- ALL-BUDGET

**PATENTED
RAIL DESIGN**

The flush-top Majestic style offers contemporary simplicity that ensures a smooth and clear line of sight and allows the ornamental perimeter fence to be used as a railing system bordering walkways and bikepaths.

The elegant look of Echelon Plus® ornamental fencing lends its appeal in a wide variety of applications ranging from neighborhood fencing, to apartment and condominium access control, to commercial and institutional perimeters.

**The Echelon Plus
Conqueror style
combines
pointed pickets
with flush
top rail**

**MAINTENANCE
FREE**

The unique Echelon Plus® Conqueror panel configuration offers the ‘best of both worlds’ by combining the striking look of spear-topped pickets with the safety of a flush top rail.

**The Echelon Plus
Warrior style
shows off
alternating
pointed
picket heights**

The look of excellence in a traditional ornamental fence is further enhanced by the alternating picket heights that mark the Warrior design, elegantly complementing the landscape of any property.

**Echelon Plus
also offers
specialty fences
for safety and
containment of
children and pets**

**POOL
PANELS**

For some applications, like swimming pool or child care perimeters, a minimum span between top and bottom rails may be required and a flush bottom rail may be necessary to meet applicable building codes. Echelon Plus® has 2-rail and 3-rail designs specifically for this.

**GATE SAFETY
HARDWARE**

**Safety
Latch**

**PUPPY
PANELS**

**Gravity
Latch**

**Spring
Hinge**

In many cases, particularly in relation to safety or containment of small children or pets, a narrower space between pickets may be necessary. Echelon Plus® Puppy Panels reduce the space between pickets to less than 2" up to a height of 2' above ground.
