Welcome to PAK Unlimited, Inc.

If quality at an affordable price is your standard, then PAK Unlimited is your screen company. PAK can outfit your job with commercial screens and nets that outlast and outperform almost anything of their kind - and we've been doing it for over 30 years.

PAK Screen: PAK can find the right screen for your application. We draw on this global network of manufacturers and experts to find you the screen with the right qualities and characteristics.

PAK Full-Service: We take the right screens and nets and customize them into a unique product to fit your specific size requirements. PAK is a full-service fabricator specializing in things like: Cutting • Sewing • Seaming • Edge Tape Reinforcement • Grommeting • Hemming • Slitting • Heat Sealing • Pinch Pleats • Irregular Panel Sizes • Circles • Wedges • Velcro • Flaps • Zippers. We also carry a full line of hardware to help you install your custom screen product.

To the right you'll find four factors that make PAK one of the premier manufacturers of quality screen and netting products. Let us put our 30 plus years of experience to work in helping to insure the success of your next screening or netting job.

1 Quality Materials:

Our screens are made by leading manufacturers from around the world. Built-in UV resistance greatly extends screen and net life-span.

2 Industrial Sewing:

Our panels are sewn by experts who take the time to make sure your panels are made right. We use only the best UV resistant sewing thread.

3 Wide Selection:

We have one of the largest selections of screens available and the expertise to help you choose the right screen type for your project.

4 Accurate Measurements:

We measure panels by hand to make sure your order is made right before it leaves our door. Our specs are some of the tightest in the industry.

PAK Privacy & Sight Barrier

FC.01 PAK Sight Barrier Screens

PAK privacy screens attach directly to your fence and block unwanted vision. Security and privacy are growing concerns. This fabric makes it easy to improve safety, protect valuable items, enhance appearance and conceal unsightly areas. PAK pri-

Continued on p2

Sight Barriers continued.

vacy fabric has been used at homes to shield pool areas and at public facilities to guard playgrounds. Business owners use it to conceal hazardous equipment or expensive inventory. Contractors use it to safeguard construction sites and discourage trespassers. The fabric is easy to install, durable and lasts for years. Many colors are available.

PAK Wind Screens

FC.02 PAK Tennis Windscreen

PAK tennis windscreen is the choice of many world-class tournaments. Pros love it because it is great looking, blocks background distractions and shields their games from the wind. Our windscreen fabric is UV stabilized for extended outdoor life. Strategically placed openings allow air to pass through, thereby reducing wind stress on tennis court structures.

FC.03 Baseball Windscreen

PAK windscreens dramatically reduce wind speeds on baseball fields, thus giving a more consistent playing field. Our windscreens also decrease visual distractions in the player's line of sight, allowing for better concentration. Many colors and densities are available.

FC.04 PAK Rail Cap

PAK Rail Caps are made from high visibility yellow polyethylene. These yellow tubes slip easily over existing top rails. They visually enhance your playing field and help reduce injury by acting as a cushion on top of the fence. PAK Rail Caps also by making fence lines more visible to players.

PAK Netting Applications

FC.05 Back Stop & Foul Ball Net

Reduce stray balls. Our nets can be made to any height using a variety of different netting strengths depending on the requirements of your sport. Our nets are used to reduce damage to property by acting as a barrier. They also cut down on the number of lost balls as well. Call PAK for samples and pricing.

FC.06 PAK Golf Netting

Rugged, long-lasting PAK golf netting is the perfect choice for golf courses and driving ranges. This strong and rip-resistant netting is able to help protect nearby cars and homes from stray golf balls. It is made from UV resistant, high-density polyethylene. PAK golf netting is lightweight and easy to install. Many widths and lengths are available.

PAK - Home & Garden Applications

FC.07 PAK Kennel Covers

Use PAK kennel covers to shade your favorite animals from the sun. These tough fabrics are UV stabilized for extended outdoor life. PAK can customize covers to fit the size of any kennel. They are lightweight and durable. Available in tan, brown, green, black, white and terracotta. Also available in waterproof versions.

FC.08 PAK Deer Fence

PAK deer fencing is a strong mesh fabric that keeps deer out of your yard. The fabric is lightweight and easy to install. It can be attached to trees or posts around

the perimeter of the area to be protected. Studies show fencing is the only long-term deer solution.

PAK - Construction Applications

FC.09 Construction Screen

PAK Construction Screen serves two important function. It enhances the visual appearances of a construction area. It also reduces debris and dust from leaving construction area by acting as a separator curtain. This also helps reduce costly clean ups around construction areas.

FC.10 PAK Warning Fence

PAK Warning Fence is ideally suited for construction sites and other hazardous areas. It is eye-catching, installs easily and meets most local building regulations. Many different grades are available. Call PAK today for pricing and availability.

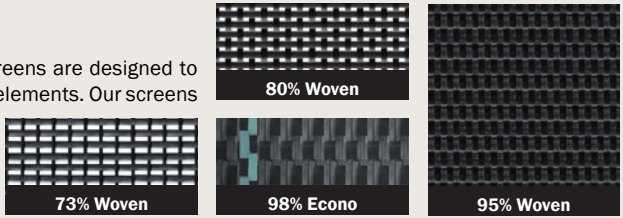

FC.11 PAK Silt Fence

Silt fencing is designed to stop run off from construction sites during rainstorms. Made from woven polypropylene, we can customize different grades and strengths to meet your local building construction regulations.

PAK Screen Types & Styles continued.

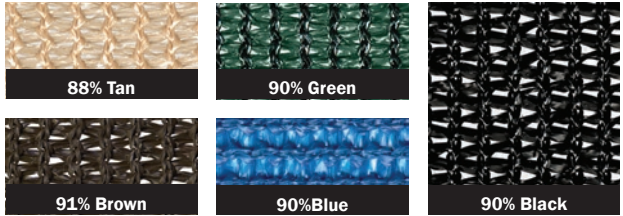

PF.01 Woven Privacy Screen

PAK's field-proven, woven privacy screens are designed to block sight, wind and stand up to the elements. Our screens have superior UV resistance for extended life-span and are some of the most rugged outdoor fabrics in the world.

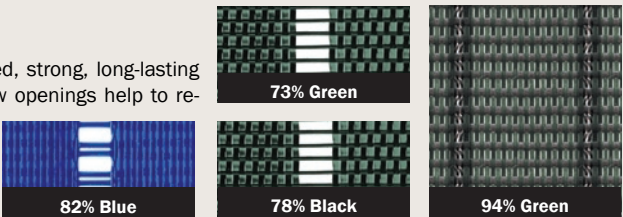

PF.02 NOW Privacy Screen

PAK NOWScreen is a economical, new tape knit that is UV stabilized and due to it's unique design it can be installed without tape and grommets. It also has a low shrinkage factor and high dimensional stability.

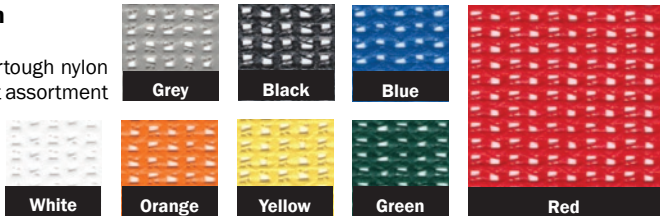

PF.03 Lath Privacy Screen

PAK Lath Shade is high UV stabilized, strong, long-lasting and resistant to abrasion. The airflow openings help to reduce stress on structures making it well suited for windy applications such as privacy fencing or tennis windscreen.

PF.04 80% VCM Wind Screen

PAK's Vinyl Coated Mesh is supertough nylon fabric that is available in a brilliant assortment of colors and will add to the visual appeal of any chain link installation. Weather resistant colors last for years.

PF.05 PAK Knotted Net

PAK Knotted Nets are available with many different opening sizes and yarn thickness for different sports and levels of play. Most nets can be bordered with rope or tape and grommets for easy installation.

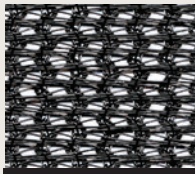

PF.06 Solid Privacy Vinyl

PAK Solid Privacy Vinyl is coated on both sides and gives a 100% visual block. Great for sensitive work areas, prisons, high security installations. Fire resistant screens also available.

PF.07 Knit Wind Screen

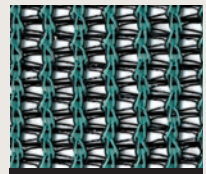

PAK Knit Wind Screen is made of UV resistant, high density polyethylene. The yarns give the fabric strength and flexibility, and the knitted design ensures against ripping, tearing, and fraying. Knit wind screens are great for tennis courts, baseball fields other sports applications.
