

New Gripple

TORQ Tensioning Tool

...know your limits

- Now with new settable tension gauge
- Measure from 100kg to 300kg
- Just 'set & go' - consistent tension every time
- Deliver up to 400kg of tension with minimum effort
- Designed for use on all Gripple products
- New robust design

The new improved Gripple Torq Tensioning Tool not only tensions wire but regulates the load applied too, delivering consistent results every time and maximising the life of the wire. This integrated feature is a huge step forward in wire and wire rope 'best practice.'
